Flashlight on taboo topics, lies and hidden dealings with taxpayer money? Issues around NGOs and misuse of money and power? Who funded what? What is the real agenda? Showing empathy and admitting wrongdoings to American families and victims would be healing – but criminals likely cover up until the end.

The Mayan Perspective

The year starts on 3/31/23: **12-South Eb**

Trecena, Lord of number 12 (Lahca) stands for good omen, fortunate for spiritual work (*coincides with Saturn/Pisces*), sacrifice (*habits, systems, past, lives*).

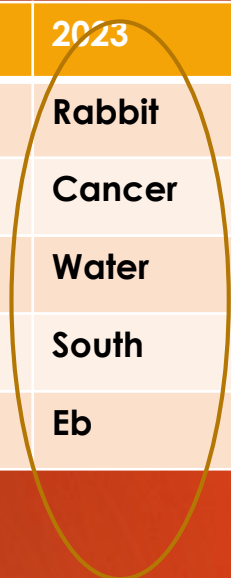

Direction South: promises good business and health, can be variable. Leaders' emotions leading to challenge. Eb = tooth, jaw, grass. Rain damaging crops. Receiving useful advice. (*We move our jaw and our teeth can be seen when we speak or pray. East and South (spring & summer) years are typically "easier" than North and West (winter & fall).*)

Day sign Eb (12th sign): tooth, jaw, grass, human, stairway/road (*Jup/Ta = infrastructure & bridges may be affected for good or ill*). Excessive rain destroying crops (*The Eb symbol is a combo of death & water*). Careful/useful, receiving useful advice (*massive disclosures, confirmed through Pluto/Aqua and Sat/Pis: party pooper for the greedy, power-hungry and unlawful ones*). Performance over emotions (*people are advised to detach from emotions, get over fear, not be triggered, stay on the earthly spiritual path, just as Sat/Pis is suggesting – but not fall into pride or for extravaganza either!*). Eb is moving slowly & steadily toward perfection like Taurus. (*coinciding with Jupiter/Taurus*).

Ingresses & Directions

Bottomline

- **Saturn in Pisces** is asking us to master our emotions and practice spirituality diligently and as if nobody is watching. We are responsible of constantly flushing out any toxins in the body and maintaining a strong immune system.
- **Pluto in Aquarius** shows us the dark side of misused science so that we can choose to apply it ethically and for the good of all, and not to play God and mess with nature. We realize that everyone of us holds a piece to the puzzle and is equally important, and that self-disciplined and responsible people don't need to be controlled by any leaders.
- **Jupiter in Taurus** brings us opportunities to re-evaluate our relationship with possessions and brings us down to Earth. In the end, we can only eat the fruits of the Earth – but we cannot eat money, which is only a place holder. The motto is: talent over bank account. A healthy sense of justice is crucially important.
- **The nodes in Aries-Libra** prompt us to get out of our comfort zone into which we have been trained over the past decades, if not centuries. It's time to act and build new foundations of society – schools, banks, business that are run honestly and directly, without several middlemen to suck the people dry.
- **The eclipses** ruled by Venus and Mars hit the reset buttons regarding the themes (planetary contacts) and areas (houses) in our charts – no matter whether personal or mundane.

**Let's remember that we chose to be
here right now and right here, and
that we are always equipped for
mastering our task at hand!**
